Diamond shaped object

ONE OF THE OBJECT'S INVOLVED IN THE FIREMAN'S FIELD REPORT.

\*\*\*\*\*

### THIS ISSUE'S FEATURES:

SPECIAL REPORT ON PLUM ISLAND AND ANIMAL AND HUMAN EXPERIMENTS.  
PRELIMINARY REPORT ON THE FIREMAN'S FIELD INCIDENT.

### PLUS:

CONFERENCE PROFILE, THE LONG ISLAND SCENE, THE NATIONAL  
AND INTERNATIONAL U.F.O. REVIEW.

\*\*\*\*\*

L.I.U.F.O.N. is on the march... The Massapequa Public Library talk on Oct. 12, 1990 was a smashing success. Some 70 enthralled listeners received the LIUFON presentation with wide eyed enthusiasm. They almost wouldn't leave the library after the talk was over... The Nesconset Public Library has arranged for us to speak on March 20th, 1991 at their branch. A Saturday affair, it will begin at 10:00 a.m. lasting until 1:00 p.m.... The lecture and slide program is currently being upgraded with much more information constantly being added. This is being done in preparation for the Conference on October 27th and 28th as well as for future library presentations... On October 20th, Barry and Debbie Gellis of Queens Public Access T.V. (sorry folks, but we originally thought they were with Brooklyn-Queens Cable, but they are not) which is broadcast on Channel 35 in Queens, had Chairman John Ford as a guest.. The interview which lasted some two hours will be aired in installments on their program, U.F.O's Today. One of the interviews will deal with the Moriches Bay Crash and will be aired as a special on the air. The other installments will deal with U.F.O. sightings, abductions and the Vanderbilt Planetarium Talk. This presentation will give the city residents some idea for the first time what happened over Moriches Bay on Sept. 28, 1989. We don't know what the reaction of the listeners will be, but the camera crew and production staff was in total shock at what we had to disclose. We expect the show to air in late November. Watch for it. The "Smithtown News", on October 17th, 1990 released the first of a two part article dealing with the Network and publicizing some of the more interesting cases we have presented. Also some of the many photos that we have developed as a result of our investigations are included. "The Three Village Herald", on October 17th, released a major story dealing with the Network and the Moriches Bay Case and the pending Conference. They plan to have another article on us after the conference.. Joel Martin's T.V. Show on October 26th will host John Ford, Dick Ruhl and Antonio Huenees live. The show will deal with the Vanderbilt Planetarium Debate and the current state of investigations in the New York City and Long Island area. Don't miss this one if you live in the Suffolk area.. Needed more investigators, typists, writers and production assistants for our investigation department and for putting together our journal and newsletter. Please call the hotline for information and applications.. Our apologies for the continued delay in the journal, but we have had problems in the ability of our photocopier to print 8x11 copies. As soon as it is corrected the journal will be in your hands. Please bear with us.. One of the reasons we are holding the conference is to raise more funds for a new photocopier and computer system.

Members make every effort to attend the conference, it's going to be some gathering.. By the way, LIUFON has signed a contract to have the whole conference commercially recorded for resale. Next month we will be printing a order form for distribution of the tapes (both audio and video copies will be available). "Back Country Productions", is the firm that will be marketing the tapes.. Members, please remember it is your obligation to report U.F.O. incidents to the organization along with any newspaper articles dealing with the subject to L.I.U.F.O.N. Please call the Hotline or mail in your report.. Remember, keep watching the sky!!!! 30

\*\*\*\*\*

One of the main reasons most skeptics believe that U.F.O.'s could not exist and that interplanetary travelers would not want to visit us, since they doubt that our visitors would locate any intelligent life forms here. Hmmm, that's a interesting point.

**MEMBERSHIP MEETING:** On Friday, October 26th, 1990 at 6:30 p.m. the next membership meeting will be held at the South Country Library in Bellport Village. The presentation for the night's meeting will be a video presentation of the Bill Cooper Lecture at the 1989 State Conference of the Nevada State Chapter of the Mutual U.F.O. Network.

Mr. Cooper is a controversial figure in Ufology today. He alleges to have seen Top Secret U.F.O. Briefing papers to the Commander of the Pacific Fleet in 1973 while part of a special Intelligence Team when he was in Navy Intelligence. He alleges that the papers show a hidden government within our Government that controls the U.F.O. Problem. Alien Contact, Diplomatic Treaties with Interstellar Civilizations, Alien Bases on our world, Secret Space programs, U.S.-Soviet bases on the Moon and Mars, and the Government financing of U.F.O. Technology development through the sale of drugs to our children. Is it true or is Cooper a nut? Hear what he has to tell you for yourself. Don't miss it.

The meeting is open to the membership, their guests and the general public. Meeting starts at 6:30 p.m. and ends at 8:30 p.m.

\*\*\*\*\*

#### OPERATION LONG ISLAND SKYWATCH:

Operation Long Island Skywatch continues until the weather gets too cold for us to stand. For information on the weekly Skywatch operation please call the Hotline. Every Saturday night we will be out until the snows come.

\*\*\*\*\*

#### DUES INCREASE:

As of January 1st, 1991 the dues will be increased to twenty five dollars a year. This is due to increases in the costs of operating the organization.

\*\*\*\*\*

#### PUBLICATION COSTS:

The membership of course receives the newsletter and journal free. This is aimed more or less at the general public who desires the recent copy of the newsletter or journal. As of a month ago the Board of Directors voted to raise the price of the newsletter to \$2.00 and the journal to \$5.00. This is effective immediately.

\*\*\*\*\*

#### SPECIAL ANNOUNCEMENT TO THE MEMBERSHIP.

The Board of Directors of the Long Island U.F.O. Network announces to the membership that there is a certain person who is a representative of another organization who has been busy this past year speaking in the Public Libraries on the Island. This gentleman used to be an investigator with the Long Island U.F.O. Network until he was expelled from the organization with full loss of membership privileges. The basis for his removal was due to the repeated frauds and misrepresentations he committed while working for L.I.U.F.O.N..

Recently we discovered that he has begun to sell through his boot leg video business tapes of conferences and meetings which L.I.U.F.O.N. had recorded. He obviously has had no permission from this organization to do so. In light of the loss of revenue and the outright violation of our copyright, the Board of Directors has voted to retain legal counsel.

As of this month, L.I.U.F.O.N. has filed suit against this individual and his organization in Suffolk County Supreme Court for \$50,000 dollars in damages.

We understand from other researchers in the community that he has committed similar infringements on other individuals and groups without their consent.

Beware of Island Skyblotch !!!!!

## THE LONG ISLAND SCENE.

The activity continues----- The report carried in the last issue of a meeting with an ex-Air Force Officer who claims to have seen a demonstration flight of a terrestrial or extra-terrestrial U.F.O. in August of 1955 at a undisclosed Air Base in the American South West is still under investigation. At this demonstration flight he claims were present President Eisenhower and Foreign Dignitaries. The size of this object was some 286 feet in Diameter. It possessed a dome cockpit arrangement and was operated by a Air Force crew of four. The gentleman stated that it made little or no noise as it flew and seemed capable of tremendous speed. We plan to meet with him again and plan to make a full report on this case to the membership at a later date.-----Some aspects of this case are so sensitive that LIUFON has planned not to reveal publicly any sensitive details. If any member wants a hint of what it may contain, then please make every effort to attend the membership meeting on October 26th and hear the Bill Cooper tape.-----There are certain portions of Cooper's statement that reflect on this man's story.----- On September 26th, 1990 in Patchogue there was a U.F.O. incident involving four young boys in which we suspect they were abducted from Fireman's Field. (See the special report in this month's issue on this case)----- On Thursday morning, October 4th, 1990 over the intersection of the Long Island Expressway at exit 64 and Route 112, an anonymous female witness called to report that she observed high in the sky a triangular object. A dull metal texture composed the silent object as it moved slowly overhead. The woman stated that it appeared to have four landing legs deployed around the craft. The size was estimated in the area of two hundred feet at a altitude of several thousand feet.----- No other witnesses called in except her and she remained anonymous, yet it has been given a degree of credibility by LIUFON for the simple fact that if it was a fraud why did she pick out the shape of a triangle and not a disc. Not too many people have access to our newsletter to learn that triangular shaped objects are being seen frequently over Long Island skies.----- The case in West Islip is still under investigation with continuing reports indicating the family there are still prone to abductions.-----The Center Moriches Abduction Case involving the family there has heated up again with the report of a nocturnal visitation involving the removal of blood from the left leg of one of the family members.-----The Lefante Case continues with another reported abduction of Mr. Lefante this month. Mr. Lefante claims to have been strapped into a device in which his brain was probed with a beam of light while his entire memory was indexed onto a computer.----- And so the activity continues. 30

\*\*\*\*\*

### UPCOMING MEMBERSHIP MEETINGS !!!

November 30th, 1990; at the South Country Library. A presentation dealing with the Loch Ness Monster and other Strange Creatures. A change from the U.F.O. habit.

December 21st, 1990; at the South Country Library. A special video presentation on the subject of the Great Siberian Explosion in the early part of this century is explored in depth. Was it a comet or a alien spacecraft. Decide for yourself after you see this great video documentary.

(The South Country Library is in Bellport Village).

THE CHAIRMAN'S CORNER.

CASE NUMBER: 091-89

RE: PLUM ISLAND U.F.O. ACTIVITY & ANIMAL AND HUMAN MUTATIONS.

This report has not been verified through any sources that we have. It is being published here for your edification in the hopes that someone out there can provide us with details that can prove or disprove the story. So far, Linda Howe has told us that she heard of similar bizzare stories coming out of another Government experimental laboratory in Newport, Rhode Island.

To all of us here on the Island, the existence of Plum Island is no great mystery. Prior to World War Two it was a Coastal Artillery Fort with a small Airfield on it. After the War in the fifties, it was converted to an Dept. of Agriculture Research Laboratory for further study into animal diseases. It has been rumored that sometimes Germ Warfare Research has been conducted there under the Defense Dept.'s auspices. In either case, Plum Island is located off of the North Fork of the East End of the Island and is ideally situated due to its inaccessibility from the mainland for such research.

The story comes from a friend of Christine Peterson. One night Richard Stout was asked to drop by the Petersons ( the Family that photographed the Moriches Bay Incident ) to interview a close friend of Christine's. The Peterson's wanted us to know this story. It seems that the girlfriend works in a Rehab program for drunk drivers. She had been counseling a man who had been sent to her for guidance. He was a laboratory assistant at the lab who had been convicted for drunk driving and was now under supervision. It seems that during one of her sessions he broke down and began to tell her of the compelling reasons for his recent drinking problems.

It seems that while working there some two years ago, he stumbled onto some weird goings on. First that at a secure facility on the island that the government had been breeding a race of legless cows. Further, that the cows were being bred solely for food. That they would be suspended from the ceiling of a building in a harness and periodically blood taken from them. That some of the cows were also the subject of organ transfers to other cows while other species organs or heads would be grafted onto the bodies of some of the test cows. That one night while working there he went for a long walk onto a part of the island that is restricted to all even those with high clearances. He stated that he walked through fields and passed through this area without realizing it. By accident he stumbled onto a area where there was a building. Adjacent to it was a landed U.F.O. with aliens and government personnel escorting what appeared at first to be animals being led into a building. As he approached he noticed the animals to be horribly mutated. Next he observed what was to be humans who were also horribly mutated grotesque deformities. He was spotted and detained for questioning by the government and warned not to speak about what he saw. He was also told that if he did and they found out about it, he would be killed by the government. The stress of the incident and the ominous threat from the government of death had driven him to develop a drinking problem. He also stated that the Plum Island area had been the subject of repeated U.F.O. sightings and landings which resulted in a warning to all not to talk of this.

year was the first time he told anyone what he had seen.

L.I.U.F.O.N. as stated before does not know if this story is true. We don't know if it's false. The identity of the man is unknown to us. The story comes from a second hand source. What Richard Stout did was file this report with us. The case remains open in our files.

It should be noted, the current theory in Ufology as advanced by the likes of John Lear and Bill Cooper is that there exists a formal treaty with the Greys. Those beings from Beta Reticuli who are responsible for the abductions and experiments on humans. That they need cows blood as a source of nourishment and sustenance both for themselves and the hybrid embryos they are developing which are half alien and human.

Did this man discover a secret government feeding station for the Greys? Did he find an experimental station for research on humans? Judge for yourself. By the way, if you know of anyone on Plum Island who is a friend of yours show him this article.

\*\*\*\*\*  
THE FIREMAN'S FIELD CASE.

CASE NUMBERS: 108-90 AND 109-90

CLASSIFICATION: CE-III

SCENARIO: U.F.O. SIGHTING WITH ABDUCTIONS.

SUBJECT: FOUR PRE-TEEN BOYS

DATE: SEPTEMBER 21, 1990

STATUS: UNDER INVESTIGATION.

PRELIMINARY REPORT; FROM L.I.U.F.O.N. ARCHIVES.

About 8:00 p.m. on Friday, September 21st, 1990; Kevin and Raymond McGrath left their home on Smith Street in Patchogue to play some softball in Fireman's Field located in Patchogue. In the field they met their friends Tommy and Edward. Tommy is eleven years old while Edward is thirteen. The two McGrath brothers are eight and twelve respectively. As per instructions they were told by their parents to be back home no later than 10:00 p.m. that night.

When they got to the field there was a large Little League game in progress and they could not use the regular diamond, so they went into the field adjoining the club house which is located across the street. This field which was poorly lit at the time served as their playing field.

It started to get dark about that time and the softball turned into horsing around as most boys at that age are prone to do. About 9:00 p.m. both Kevin and Raymond observed a series of lights out over the water to the South West. The lights seemed at first to be blinking. One of the lights appeared to be steady, but pulsating growing brighter and dimmer. The third was a dull red light. These lights caught the attention of the other boys, Tommy and Edward. The boys remarked at the unusual lights and the fact that they were first moving and now just hung in the sky. One of the boys stated that they must be the lights of a plane because there were light planes in the area.

In ten minutes time the situation had changed. The boys looked up to see strange objects hovering near the field. One was a diamond shape object while the other was the classic domed saucer with a brightly lit window around the middle of the dome. The diamond shaped object moved over them while the domed saucer accompanied it hanging back a little. The third object a bright red light hung back and followed the other two. They could see no shape behind the red light.

As the objects approached them, all the boys complained of severe pains in their legs and lost control of them falling to the ground. They were paralyzed and could not stand up. The saucer was above them.

As the boys were on the ground, they noticed that a light plane was coming near the area. The objects moved off to the East very quickly. In a few minutes they were able to stand up with difficulty.

The boys were frightened by what just happened. They were in the process of leaving the field when they noticed the objects zooming in from the East again. This time the diamond shaped object and the domed saucer were together. The diamond object hung back while the saucer hovered above them. The boys again felt severe pains in their legs and all fell to the ground while they were bathed in a brilliant light. Raymond stated that his little brother's arm fell across his chest and he observed the second hand on his watch to begin to slow down while the saucer was above them. The two McGrath boys stated that this happened at 9:10 p.m. and it lasted only some ten minutes.

The objects then moved off to the East while the boys got up and started to leave. They noticed that the diamond shaped object followed them some distance to their home while the red light accompanied it. The domed saucer flew low over them to the East and appeared to land in the wooded area known as the Forty Acres.

As soon as the boys got home, they noticed that it was not 9:30 p.m. but closer to 10:00 p.m. They had lost some forty minutes of time which they could not remember. Their friends had gone home on their separate ways.

They related their frightening story to their mother and father. Their father believed the children since both boys appeared to be extremely frightened and appeared to be relating the same story in detail. He knows his children to be good sons and never to lie to him.

He left his house and walked over to the field. When he got there he noticed two Suffolk County Police cars checking out the area. He didn't ask any questions. He returned home. Mr. McGrath called the Fifth Precinct to report the incident, but was told not to bother since they do not take U.F.O. reports. He was referred to the F.A.A. who in turn gave him our telephone number and Dick Ruhl's. Upon contacting Dick Ruhl, who is also a Field Investigator with L.I.U.F.O.N., he was interviewed by Dick and a report was taken. On the morning of the 22nd, L.I.U.F.O.N. Chairman John Ford was informed of the story. That afternoon Field Investigator Frank Columbo was told to contact the family and prepare them for a in depth interview.

On the evening of the 24th of September, a team of investigators was sent to their home on Smith Street to conduct an interview. Tape recorded interviews were taken and reports filled out under the supervision of the parents since the children were minors.

The children who were with the McGrath boys were not interviewed or contacted since their parents declined to co-operate.

Conclusions: The team after interviewing the McGrath children reached the following preliminary conclusions;

- 1) The boys experienced a real event. They were still complaining of severe pains in their knees and ankles. They had no signs of any marks, bruises and punctures on their bodies.
- 2) The boys drew pictures of the craft. Raymond's picture of the diamond craft resembles drawings of similar objects seen here on the Island. Kevin pictured the diamond craft as a oval object.
- 3) The boys both stated there was a time loss suffered and Raymond noticed that time was slowing down on Kevin's watch. This usually is noticed in close encounter cases and abductions.
- 4) Field examinations of the area indicated no radiation, magnetic anomalies or dead vegetation in the park. However, there were deep indentations in the soil indicating possible tripod marks some 32 feet apart. The size of the disc was estimated to be 32 feet.
- 5) One of the boys recounted a vivid nightmare about being in a metallic room which was filled with white light and had a metallic table in it.

Summation: It is the opinion of the team that the boys were abducted after being immobilized. Both of the boys stated they saw entities in the window of the disc with large heads as it hovered above them. The older boy, Raymond, if perpetrating a

hoax could not have had prior knowledge of the existence of other drawings in our possession given to us by other witnesses concerning a diamond shaped object. This object has been seen this year and last year on Long Island, while a 1982 report places it earlier on the East end in Quoque.

It is the conclusion of this preliminary report that the boys had a genuine U.F.O. encounter. The signs point to an abduction.

\*\*\*\*\*

#### THE NATIONAL AND INTERNATIONAL U.F.O. REVIEW.

GULF BREEZE, FLORIDA: Starting in Novemembr of 1987, Ed Walters and his family photographed and video taped a strange U.F.O. which had buzzed his home and family well into July of 1988. The photographs are probably the most incredible piece of U.F.O. evidence in history. Ed Walters and his family are not the only witnesses, since hundreds saw the objects also in the small Gulf Coast town. There were also independent photos taken by at least two other witnesses of that object or similar objects that are part of the evidence to this major case. Dr. Bruce Maccabee has certified the photographs as the genuine thing. Recently Ed Walters and his wife wrote a book about the entire episode which has been recently published in exchange for a initial sum of \$400,000.00. The case recently has come under attack by the elected officials of the town and a host of official debunkers. What has caused this was the discovery of a model of the object which was found in the attic of his former home by the current owner and two newspaper reporters. They went there after receiving a tip that it was there. Also a teenage friend of the Walter's son has surface to state that he helped Ed Walters and his son forge the photographs. The Mutual U.F.O. Network which investigated the case has reopened its investigation into the entire episode as a result. At a press conference this summer MUFON officials stated that they stood by the Walters story, but were rechecking to dispel any doubts. There is a strong suspicion in the U.F.O. Community that either the government or someone is trying to discredit the case, since Ed Walter's youthful arrests for car theft and forgery have been used to discredit his story. All this surfaced after Phil Class and his team of official debunkers were in Gulf Breeze this summer .

BRUSSELS, BELGIUM: The continuing reports of the large triangular objects seen in and around Brussels since November of 1989 are still being reported. These include military jet chases and radar contacts. The Belgium Government and Air Force are still at a loss for any kind of explanation.

PENSECOLA, FLORIDA: The Mutual U.F.O. Network held its 1990 Symposium in this Florida City's Civic Center to an estimated 1000 participants. The conference held as its main attraction Ed Walters and his wife while emphasizing the many aspects of their unique case. The conference was held between July 5th to July 7th.

OMAHA, NEBRASKA: August 23rd 1990 found residents in and around Douglas County reporting a cluster of multi colored lights passing through clouds. Onlookers below were bedazzled by the bright display of the lights. Some observes reported a metallic object at the head of the lights which reportedly moved very fast across the sky. No explanation was offered by the Sheriff's Office or the F.A.A.

ST. FRACOIS XAVIER, MANITOBA: A large 40 foot circle of depressed wheat was discovered on George Friesen's farm located in this rural Canadian area. The farm located on the corner of the Trans Canada Highway and Highway 241 in Saint Francois Xavier, was the subject of this circle around August 19th or 20th. Chris Rutkowski of Ufology research of Manitoba reported that the circle looks very similar to the English corn circles.

The Long Island U.F.O Network announces to the Metropolitan News Media that the Network is holding its annual U.F.O. Conference on Saturday and Sunday, October 27th and 28th 1990, between the hours of 11 A.M. and 7 P.M., respectively each day. The Conference will be held at the Artist Lake Condominium Community Center in Middle Island, which is located North of Exit 66 of the Long Island Expressway on Middle Island Yaphank Road. The conference is titled, "U.F.O.'s On Long Island" and is the third in a series presented by L.I.U.F.O.N. to educate and inform the Long Island Community about the state of research in to the U.F.O. phenomenon.

At the conference a special presentation will be hosted by L.I.U.F.O.N. into its continuing investigation into an alleged U.F.O. Crash Retrieval by the U.S. Government on September 28th 1989 over Moriches Bay, Long Island. Photographs of the object will be presented to the public during the program, some of them for the first time.

A panel of distinguished guest speakers will be presented for the public's edification of the U.F.O. phenomenon.

Budd Hopkins; noted authority on alleged U.F.O. abductions will present a lecture on his research.

Linda Moulton Howe; Emmy Award winning producer of the T.V. Documentary, "Strange Harvest", will be presenting a report on the connection of strange animal mutilations to the U.F.O. phenomenon.

Antonio Huenees; Journalist and author will present a guest lecture on the, "Russian Sighting". Some of this information for the first time in the West will be presented here at this conference. Mr. Huenees is a noted international lecturer and researcher.

Coleman Von Keviczky; internationally known U.F.O. researcher will present a special report on the Star Wars-U.F.O. Connection. Mr. Keviczky led the U.N. Committee investigating the U.F.O. phenomenon in the 1970's.

Peter Robbins; teacher and author will present a special report on the Bentwaters, England Case of 1979, where it is alleged the U.S.A.F. helped repair a disabled U.F.O.

Phil Imbrogno; nationally known U.F.O. researcher into the Hudson Valley sightings of the 1980's will present a special report on his continuing research into the continuing reports from up there.

U.F.O. Abductees James Lefante and Richard Price; noted U.F.O. abductees will lecture on their cases and will present startling evidence on the validity of their experiences.

Al Bielich; noted Scientist will deliver a report on the famous "Philadelphia Experiment" in which he participated in the experiment to make a U.S. Destroyer disappear in 1943.

Preston Nichols; scientist and lecturer will deliver a report on the "Montauk Project" which involved government experiments in time travel, teleportation and U.F.O. research.

George Dickson; Long Island U.F.O. Researcher will deliver a report on his investigations into the U.F.O. problems here on the Island.

Joel Martin; noted Radio and T.V. talk show host will address the conference on his experiences in the field of U.F.O.'s.

Dr. John Bowman; noted clinical psychologist will talk about his use of hypnotic regression in aiding U.F.O. abductees.

The conference is open to the public and price of admission is \$25.00 per day or \$40.00 for both days. All funds raised will go towards financing the Network's U.F.O. Research. The Long Island U.F.O. Network Inc. is a incorporated non-profit Research organization.

# THE LONG ISLAND UFO NETWORK

PRESENTS

## UFOS ON LONG ISLAND

CONFERENCE III

SATURDAY AND SUNDAY

OCTOBER 27th AND 28th, 1990

FROM 11:00 A.M. TO 7:00 P.M., EACH DAY.

LOCATION: ARTIST LAKE CONDOMINIUM COMMUNITY CENTER IN MIDDLE ISLAND, N.Y. AT ARTIST LAKE CONDOMINIUMS. LOCATED ON YAPHANK MIDDLE ISLAND ROAD AND ROUTE 25 IN MIDDLE ISLAND, NORTH OF EXIT 66 OF THE LONG ISLAND EXPRESSWAY.

FEATURING:

BUD HOPKINS !!

LINDA MOULTON HOWE, PHIL IMBROGNO, ANTONIO HUENES, COLEMAN VON KEVICZKY, PETER ROBBINS, GEORGE DICKSON, PRESTON NICHOLS

AND

U.F.O. ABDUCTEES JAMES LEFANTE AND RICHARD PRICE.

AND SPECIAL APPEARANCE BY:

JOEL MARTIN, T.V. TALK SHOW HOST.

FEATURING: A SPECIAL REPORT BY THE LONG ISLAND U.F.O. NETWORK ON THE MORICHES BAY U.F.O. CRASH OF SEPT. 1989.

PRICE: \$25.00 PER DAY PER PERSON OR \$40.00 PER PERSON FOR A TWO DAY TICKET.

FOR TICKET INFORMATION, CONTACT:

THE LONG ISLAND U.F.O. NETWORK INC.  
P.O. BOX 1692  
RIVERHEAD, N.Y. 11901

OR CALL:

THE U.F.O. HOTLINE: (516) 286-3212
